

Ketamine for Depression & Anxiety

Did you know that 15 million Americans suffer from depression every year? Research shows that only half of those who seek treatment will experience a full recovery from traditional treatments. The other estimated 7.5 million people will try all kinds of medications and therapy, dealing with side effects as their depression continues to worsen.

Ketamine infusions can help patients feel better within hours. Thousands of Ketamine therapy patients suffering from anxiety and

sense of mental and emotional clarity, helping them take meaningful steps towards a better future.
